Meeting Monitor Duties

While the topics of the sessions will be determined by the meeting room assigned to the session monitor, this is your opportunity to hear presentations on a variety of land conservation topics. Sessions are held concurrently and are 90 minutes long. The number of sessions running concurrently each day ranges from 16-21 at any given time. Meeting monitors assure that the sessions run smoothly by distributing evaluations and handouts, making sure the room is set up as requested with appropriate AV and that speakers are ready to begin the session on time, alerting Alliance staff in the event of any problems, taking a headcount of attendees, and collecting evaluations and returning them to the faculty room.

Positions fill quickly, so please return your application soon to Patty Tipson at ptipson@lta.org. Friday, August 30th is the last day applications will be considered.

**Thank you for your interest in volunteering.
We appreciate your time and support!**
